(Websites for Pens for Kids Portugal, Australia & Canada coming soon).

...and give them to
kids in countries
where they lack
everything.

...because this is a house...

...because this is a school...

...because this is an orphanage...

...and this is the orphanage's kitchen.

These kids lack everything. We can't give them that – but a pen is a good start...

- because pens send a good message
- because all development starts with education
- because money ends up in the wrong pockets
 - because pens can't shoot
- ...and last but not least...

...because this must
be conserved for
future generations to
enjoy!

Help us now —
before it is gone
forever...
